

The first ten days of Lockdown

At the start of Day One
Lockdown bubble begun
Around hour of midnight
Now no virus in sight
When will the fight be won?

It is Lockdown Day Six
There is now no quick fix
Will we die flee or fight
We are all scared with fright
Empty our bag of tricks

Chorus
Healthy virus-free day for us
Healthy virus-free day for us
Healthy virus-free day dear bubble
Healthy virus-free day for us

It's Lockdown Day Seven
Will we go to heaven
Today or late tonight
Boredom begins to bite
At ten or eleven

It's halfway through Day Two
I am locked down with you
Do you still feel alright
Killed all virus in sight
Maybe you'll kill me too?

It is Lockdown Day Eight
We are too bored to wait
Virus still out of sight
Will it get us tonight
Or is today the date?

It's early in Day Three
You are locked down with me
We still all feel alright
Killed all virus tonight
Maybe successfully?

It is Lockdown Day Nine
We're unsteady from wine
We're already half tight
We had nine drinks tonight
Everything now seems fine

It is Lockdown Day Four
There is virus galore
It is searching all night
Trying to win the fight
Lurking in walls and floor

It is Lockdown Day Ten
We're still scared now and then
We are all ill not right
We prayed aloud all night
Today we say amen

It is Lockdown Day Five
We're all well still alive
We're locked down very tight
Shell-shocked all day and night
God's will we may survive
