

P= 0.5

For a new set Click on Formulas, then Calculate Now (Right hand end)

The image displays a large grid of mathematical formulas. Each formula is enclosed in a pink rectangular highlight. The formulas are arranged in a complex, overlapping pattern across the grid. The formulas consist of letters (A-Z) and numbers (0-9) connected by plus signs (+). Some formulas are simple sums of two or three terms, while others are more complex, involving multiple terms and sometimes nested structures. The overall layout is dense and visually busy due to the overlapping pink highlights and the variety of mathematical expressions.
